DETAILED ACTION

1. Claims 1-9 were pending at the time of the previous Office Action. By the latest amendment claims 5-8 are cancelled, and new claims 15 and 16 are added. Therefore claims 1-4, 9, 15, and 16 are pending and have been examined.

Allowable Subject Matter

2. Claims 1-4, 9, 15 and 16 are allowed.

3. The following is an examiner's statement of reasons for allowance: The closest prior art in the field, Ueda, US 6,289,102, and Hirokawa, US 4,855,578, singly and in combination, fail to teach the features found in the independent claims of: an authentication routine carried out between a recording apparatus that records copied contents in a memory card where the card is used as a removable recording medium, and where the authentication is performed by the series of steps found in the independent claims in which: first information dependent on the memory card is stored in a first read-only memory of the memory card, there is stored in a second memory of the memory card a secret information formed by the encryption of the first value, where the second memory has a public area accessible by an access procedure and a second a secret area accessible only by a private access procedure and where the second value is stored in the secret area, an authentication value is generated by the recording apparatus that is derived from the first information stored in the memory card, and where authentication is carried out between the recording apparatus and the memory
